

An Org to Beamer SIGPwny Presentation Demo

Some Authors

Org Mode Makes Everything Nicer

Simple markdown like syntax:

- **Bold**
- *Italic*
- Underline

Cool table stuff:

Scheme	Hard Problem
RSA	Prime factorization
DH/ECC	Discrete logarithm

Source Code is Easier Too

```
1 print("Hello world!")  
Hello world!
```

And Still Exports to Beamer

No more writing raw \TeX .
